Beth:

I believe that FT1004 has some solids. Would this be classified as a pumpable semi-solid? rather than a liquid? Also, you need to provide me with a cost estimate for what the expected cost would be if we went this direction.

Thanks

Gary Moore

Gary,

Attached is a profile for FT1004 into Veolia as lean water at .17 lbs disposal only. I'm not saying this is our final answer but let's get it approved just in case we need to fall back on it we can be ready to go.

Thanks,

Beth Crawford
